**For Immediate Release:**

January 5, 2008

**INTRUCEPT BIOMEDICINE RELOCATES TO OWENSBORO**

*Details Presented at News Conference on January 9th*

**WHO:** Nick Brake – President, Greater Owensboro Economic Development Corporation  
Hugh Haydon – Chairman, Kentucky Bioprocessing, LLC  
Dr. Daniel Tusé and Dr. Kenneth Palmer – Intrucept Biomedicine

**WHAT:** The Greater Owensboro Economic Development Corporation (GO-EDC) and Kentucky Bioprocessing, LLC (KBP) announce the relocation of Intrucept Biomedicine, LLC from Vacaville, CA to Owensboro, KY.

**WHEN:** Wednesday, January 9, 2008 at 9 a.m.

**WHERE:** Greater Owensboro Economic Development Corp.  
Second Floor, Commerce Center  
200 East Third St.  
Owensboro

**MORE:** Intrucept Biomedicine is a product-focused enterprise whose sole focused mission is to discover and develop novel antiviral biotherapeutics.

In 2006, Intrucept Biomedicine obtained a commercial license from the National Institutes of Health to a plant-derived, broad-spectrum antiviral protein that is one of the most potent antivirals known and can be readily produced using plant-based biomanufacturing at Kentucky Bioprocessing.

Intrucept is the first Owensboro-based company to qualify for state funding through Emerging Ventures, the new Owensboro Office of the Central Region Innovation and Commercialization Center. The funds will qualify them for the new Emerging Ventures Fund, created by the Owensboro City Commission as a seed capital fund to entice technology-based companies like Intrucept to locate in Owensboro.

###

*The Greater Owensboro Economic Development Corporation is a public-private partnership formed to create a diversified, sustainable economy generating wealth, quality jobs and improving quality of life of Kentucky's third largest city.*
